Ground Safety Review Process

Objectives:

- Ensure Shuttle Payloads comply with ground safety requirements of KHB 1700.7
- Ensure ISS flight elements and payloads comply with the ground safety requirements of KHB 1700.7
- Track open safety action items and open safety verifications so that open items are closed in a timely manner

Approval: (Original signed by John Straiton for)
 Director of ISS/Payloads Processing

Notes: (Numbers on shapes correspond to numbers of notes.)

1. If the PO submits a NCR refer to KDP-P-1475 for processing.
